

## FacetPhone User Interface Installation on Windows

The FacetPhone user interface installation package for Windows can be found on your FacetPhone server:

http://xxx.xxx.xxx/facetphone

where xxx.xxx.xxx.xxx is the IP address of your FacetPhone server.

Find the link "FacetPhone Windows Software" and click on the link to download the setup.exe file.

You must be logged into Windows with an account that has administrative privileges in order to properly install the user interface. Once you are logged in as an administrator, then run the setup.exe file (double click it).

When you run the setup.exe installation program, it will display the Installshield Wizard screen:

Click the Next button and the License screen will be presented:

Accept the agreement and click Next and it will present the customer information screen:
